

BACK PAINTED GLASS SPECIFICATIONS

- WHITE ON CLEAR (slight mint green look)
- WHITE ON LOW IRON (brite white look)
- GRAPHICS AND PHOTOS WITH BACK PAINT
- MAGNETIC OPTION (Great for marker boards to attach paper flyers)

Custom applied on a per job basis, ideally suited for larger commercial applications or OEM manufacture products.

Can be applied to almost any glass we stock, including tempered.

All fabrications available.

This is a water base green product, tested and approved in various common applications. See the updated technical data sheet for further information.

3 week average lead-time on Back Painted Glass.

5 week average lead-time on Printed Glass.

Standard Pricing:

Standard White Paint:

\$10 per square foot. 3 square foot minimum, plus glass cost.

Call, fax, or email job specifications for a comprehensive quote.

Colors:

Call for quote. Minimum 250 square foot. Color match is very close, but due to glass tint variations from batch to batch, even on low iron glass there may be some color variation for parts ordered at a later date.

Glass of different thicknesses will also have a slightly different look from thickness to thickness.

*Unfinished edges will have paint on the edges. Polished edges are masked prior to paint and paint overlaps on the back arris only on flat polished parts.

**Or fax or call in your project specifications for a comprehensive quote, and for quantity discounts.*
