

Glassource Tempered Glass Certification letter effective: November 1, 2007

GLASSource, of 1845 Industrial Park Drive, Grand Haven MI, hereby certifies that fully tempered safety glazing products produced in our plant comply with United States Safety Glazing standards and applicable building codes effective on the date of production.

Specifically GLASSource tempered glass is subjected to daily routine tests of production samples to the Code of Federal Regulations Part 16, CFR1201, ANSI Z 97.1 - 1984, The Voluntary Test Methods for fully tempered glass as prescribed by The Glass Association of North America, and as specified for the Uniglass convection tempering equipment (model UGCplus1800x4200-1) used in production GLASSource fully tempered safety glass, as prescribed and tested by the Manufacturer's technical staff at installation.

GLASSource tempered glass also conforms to ASTM Standards C 1036, C 1048, and C 1376.

Our Logo permanently etched into each piece of tempered glass is your assurance and our guarantee of Conformance to these standards. The use of unmarked (NO LOGO) or non-compliant safety glazing materials in specific hazardous locations as defined by code is unlawful and hazardous. The purchaser is solely responsible for using the appropriate glazing material and to insure non-safety glazing material is not used in or resold for use in hazardous or illegal situations.
